

Fun Activities to Entertain the Kids, and You

1 – Foam Paint

Making foam paint is as easy as it gets. You've got your shaving cream, your craft/school glue and your food coloring – that's it! Mix equal parts shaving cream and glue into a Ziplock bag, add your desired food coloring and then, with the bag sealed, squish the bag together until all your ingredients are nicely mixed together. Have your little artists create a layout for their design on a semi-rigid material (a large white cardboard it's perfect) and simply cut off a corner at the bottom of the bag and use like you're piping icing. Once the art has been completed, set aside so the foam can dry and solidify overnight.

2 – Free Coloring Books

Free printable coloring pages for children that you can print out and color.
